

I hope you are ready for another adventure. If you haven't done a mystery quilt before, you're in for a treat. If you participated in our last mystery adventure, you already know how sweet the treat is!

Here's how the mystery quilt works. The fabric requirements and cutting instructions are given the first week. Construction steps are posted in the following weeks—just enough to keep you guessing! On the last week, we will give you the final construction steps and reveal the mystery.

Dig through your stash for scraps or yardage in assorted light, medium and dark values as instructed in Fabric Requirements. Remember that mystery-quilt patterns emerge best when high-contrast fabric choices in color and/or value are made. Gather the total yardages listed.

Now get ready to have some fun!

Scrap Buster #6 WEEK 5

WEEK 5 INSTRUCTIONS

Note: Use a ¼"-wide seam allowance and stitch right sides together for all construction unless otherwise instructed. It is important to keep same units and pieces together. We suggest using sandwich bags. Be sure to label each bag with the unit or piece reference name.

- Join two smaller D-E units to complete a side unit as shown in Figure 6; repeat for 19 D-E side units.

Figure 6

- Join two reversed D-E units to make a side unit, again referring to Figure 6; repeat for 33 side units to total 52 side units.

Note: From this point, there are no reversed units. Before these were stitched together, the units themselves were reversed.
