

I hope you are ready for another adventure. If you haven't done a mystery quilt before, you're in for a treat. If you participated in our last mystery adventure, you already know how sweet the treat is!

Here's how the mystery quilt works. The fabric requirements and cutting instructions are given the first week. Construction steps are posted in the following weeks—just enough to keep you guessing! On the last week, we will give you the final construction steps and reveal the mystery.

Dig through your stash for scraps or yardage in assorted light, medium and dark values as instructed in Fabric Requirements. Remember that mystery-quilt patterns emerge best when high-contrast fabric choices in color and/or value are made. Gather the total yardages listed.

Now get ready to have some fun!

Scrap Buster #7 WEEK 2

WEEK 2 INSTRUCTIONS

Note: Use a ¼"-wide seam allowance and stitch right sides together for all construction unless otherwise instructed. It is important to keep same units and pieces together. We suggest using sandwich bags. Be sure to label each bag with the unit or piece reference name.

- To make this quilt, we will need to cut the A and B pieces using templates. Print the provided A and B patterns at 100 percent, no page scaling.

- Trace template patterns onto template material. **Note:** You can use cardstock or a quilting template plastic available at AnniesCraftStore.com. Transfer all marks to the template material and label with A and B. Cut out templates on solid lines.
- Position the prepared A template on one of the set aside 4" x 6" light scraps. Try to align straight grain of scrap with arrows on template. **Note:** When cutting from scraps this may not be possible. Treat each piece carefully as if all sides are on the bias and may stretch with handling. Cut

down on the possibility of stretch by spraying with starch and then ironing dry before cutting.

- Carefully trace around the template with a fabric marker or pencil. Cut out on traced line. Cut 40 A pieces.
- Reverse the template to have labels on bottom and cut 40 AR (A Reversed) pieces.
- Repeat steps with B template to cut 40 B and 40 BR pieces from assorted dark scraps.

Print the provided A and B patterns at 100 percent, no page scaling.
